# We're not just a reinsurer

We have a client-focused mindset and an active client management programme with single points of contact and a strategic approach to engagement; addressing challenges and identifying opportunities together.

We are proud that some of our clients have grown with us since we began underwriting more than 70 years ago. We will be here when you need us.

Our heritage as a traditional, underwriting-led reinsurer dates back to the 1950s. As our business has evolved, so has our strength and knowledge and we intend to keep growing and learning to help you manage the risks you see today and in the future.

Our people and our technical expertise are valued by the market and our clients. We are trusted to assess the most complicated of risks and are asked to quote on the majority of opportunities relevant to us.

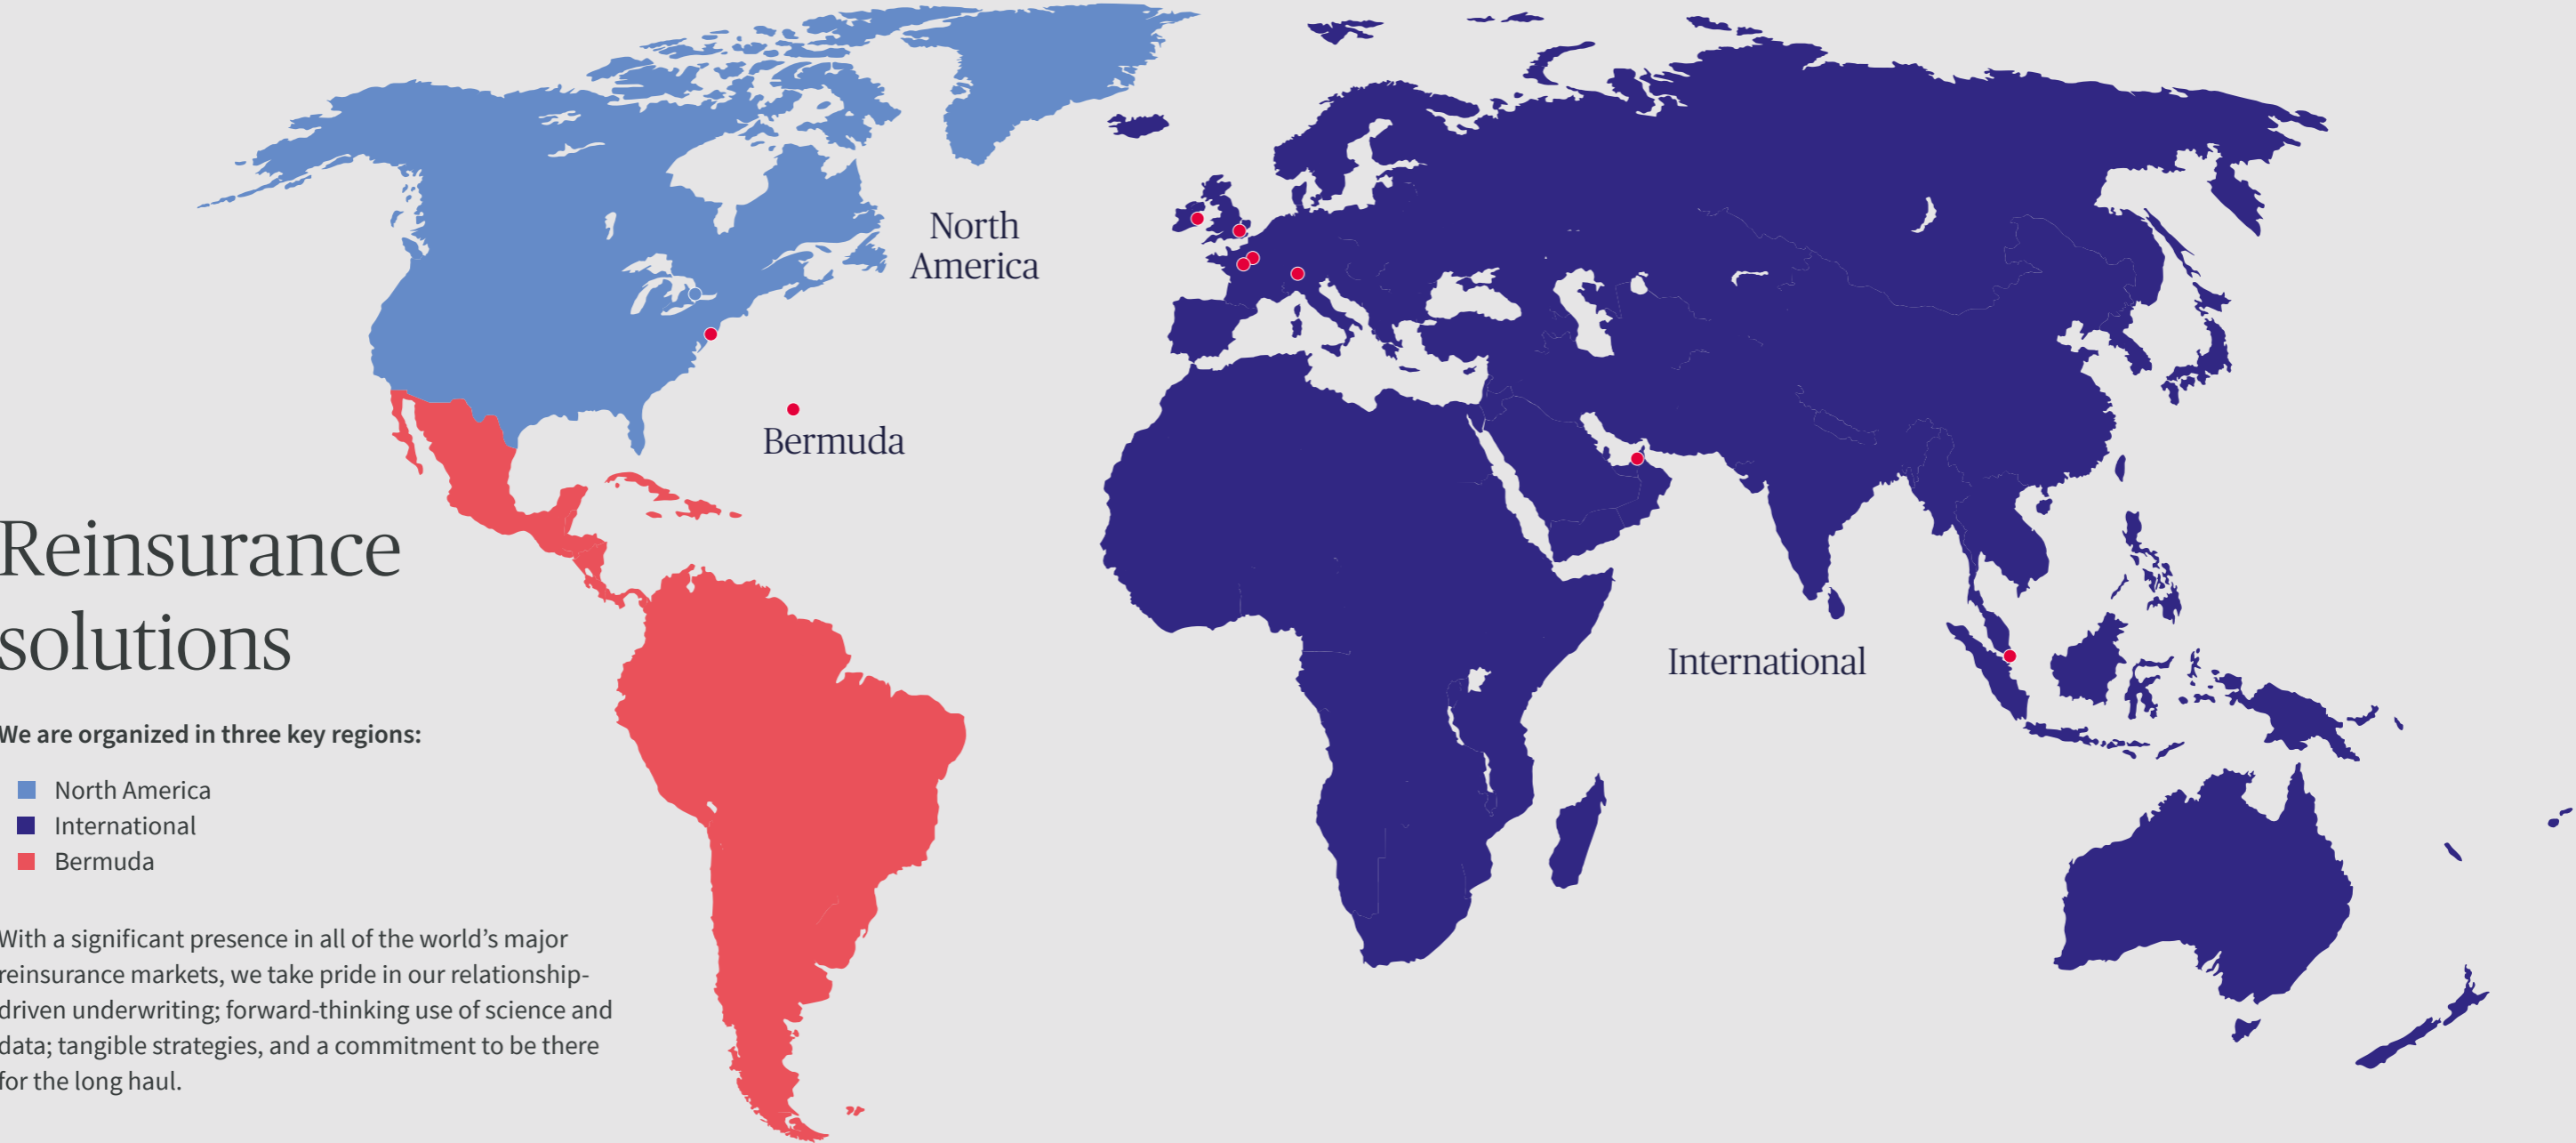

We're part of AXA Group,  
a global financial institution,  
so we benefit from a strong  
capital position and AA - (S&P)  
and A+ (AM Best) ratings

That means you can depend on us to meet  
our commitments to your business.

We are ensuring our sustainability. We're selective about  
risk to create a balanced portfolio, because that means  
we will be here for you in the long term.

# Reinsurance solutions

We are organized in three key regions:

- North America
- International
- Bermuda

With a significant presence in all of the world’s major reinsurance markets, we take pride in our relationship-driven underwriting; forward-thinking use of science and data; tangible strategies, and a commitment to be there for the long haul.
