AXA XL Ecosystem

What is the AXA XL Ecosystem?

The AXA XL Ecosystem combines an exclusive collection of tools, technology partnerships, tailored insurance solutions, knowledge networks and other state-of-the-art services to help our clients drive innovation across their businesses.

We're leading the way as the most innovative insurer for the most innovative enterprises. To address property risks, we partner with several firms that focus on the following areas:

- IoT sensors
- Enterprise Software
- Education & Training

Tech Champions and Ambassadors

Our Tech Champions are risk engineering representatives for our tech partners by risk theme, and are paired with the risks they specialize in to help our customers navigate the connection between risk and technology.

Our Ambassadors are an underwriting extension of our core ecosystem team. They are specialists in our ecosystem offerings and can help you determine which services are right for your business, and how these services pair with our offerings. Collectively, our Tech Champions and Ambassadors are deeply knowledgeable advisors who can help guide your tech adoption journey.

Ecosystem partnerships

Customers want more from us than just paying bills. We developed the AXA XL Ecosystem to assist our insureds with technology screening, adoption, and implementation that will support their risk management priorities. The AXA XL Ecosystem is comprised of preferred partners that offer a wide array of powerful software, hardware, and service-oriented solutions.

Our customers have a diverse set of technology support needs for their property risk management efforts. We think the technology areas and partners on this page will provide the most immediate value for our Property clients.

We developed the AXA XL Ecosystem to assist our insureds with technology screening, adoption, and implementation that will support their risk management priorities.

Technology area	Description	Partners
Internet of Things (IoT) Sensors	Technologies include indoor and outdoor site monitoring using smart sensors and software applications that provide building environmental monitoring for heating, ventilation, energy use, water damage, and seismic damage assessment. System alerts provide property management staff with enhanced real-time response capabilities.	Digital Risk Engineer, Eddy Solutions, Safehub, Tattletale, WINT
Enterprise Software	Technologies include software and integrated hardware systems to verify and track loss prevention. Safety related, compliance as well as data analytics support is available to help improve compliance. Mobile applications are readily available to track safety and quality.	Safesite, Smart Compliance, Document Crunch
Education & Training	Technology includes internet-based training and software communication tools to build strong safety programs, reinforce best practices, prevent incidents and accidents, and reduce frequency & severity.	MindForge

We welcome you to contact us about the AXA XL Ecosystem and see if our advisory services and technology partners can provide value to your risk management programs.

Global Asset Protection Services LLC, XL Catlin Services SE and their affiliates (“AXA XL Risk Consulting”) provide loss prevention and risk assessment reports and other risk consulting services, as requested. In this respect, our property loss prevention publications, services, and surveys do not address life safety or third party liability issues. This document shall not be construed as indicating the existence or availability under any policy of coverage for any particular type of loss or damage. The provision of any service does not imply that every possible hazard has been identified at a facility or that no other hazards exist. AXA XL Risk Consulting does not assume, and shall have no liability for the control, correction, continuation or modification of any existing conditions or operations. We specifically disclaim any warranty or representation that compliance with any advice or recommendation in any document or other communication will make a facility or operation safe or healthful, or put it in compliance with any standard, code, law, rule or regulation. Save where expressly agreed in writing, AXA XL Risk Consulting and its related and affiliated companies disclaim all liability for loss or damage suffered by any party arising out of or in connection with our services, including indirect or consequential loss or damage, howsoever arising. Any party who chooses to rely in any way on the contents of this document does so at their own risk. AXA, the AXA and XL logos are trademarks of AXA SA or its affiliates. AXA XL is a division of AXA Group providing products and services through three business groups: AXA XL Insurance, AXA XL Reinsurance and AXA XL Risk Consulting. In the US, the AXA XL insurance companies are: Catlin Insurance Company, Inc., Greenwich Insurance Company, Indian Harbor Insurance Company, XL Insurance America, Inc., XL Specialty Insurance Company and T.H.E. Insurance Company. Not all of the insurers do business in all jurisdictions nor is coverage available in all jurisdictions. Information accurate as of November 2022.
