Global Asset Protection Services, LLC, AXA Matrix Risk Consultants S.A., and their affiliates ("AXA XL Risk Consulting") provide loss prevention and risk assessment reports and other loss prevention services, as requested (specifically property related in respect of reports and services provided by or through Global Asset Protection Services, LLC). Documents created by AXA XL Risk Consulting including reports, letters e-mails, publications, etc. are based upon conditions and practices observed and the data made available at the time of its collection. In the case of Global Asset Protection Services LLC, its personnel, publications, services, and surveys do not address life safety or third party liability issues. Any services addressing life safety or third party liability are provided by others. This document shall not be construed as indicating the existence or availability under any policy of coverage for any particular property or type of loss or damage. The provision of any service does not imply that every possible hazard has been identified at a facility or that no other hazards exist. AXA XL Risk Consulting do not assume, and shall have no liability for the control, correction, continuation or modification of any existing conditions or operations. We specifically disclaim any warranty or representation that compliance with any advice or recommendation in any document or other communication will make a facility or operation safe or healthful, or put it in compliance with any standard, code, law, rule or regulation. If there are any questions concerning any recommendations, or if you have alternative solutions, please contact us. Save where expressly agreed in writing, AXA XL Risk Consulting and its related and affiliated companies disclaim all liability for loss or damage suffered by any party arising out of or in connection with this document, including indirect or consequential loss or damage, howsoever arising. Any party who chooses to rely in any way on the contents of this document does so at their own risk.
