Protective Environmental Asset Coverage Enhancement **(PEACE)**

AXA XL's new PEACE endorsement gives lenders PEACE of mind for facilities with environmental risk. In the event of a default and even before a default, a lender's security risk related to a location with pollution conditions is backstopped by coverages in the PARLL policy and PEACE endorsement. It pays for a Mortgage Impairment Loss as a result of a pollution condition on, at, under or migrating from a covered location — provided that a loan default has occurred during the policy period.

This product is used with our flagship Pollution and Remediation Legal Liability (PARLL) policy to protect loans and financial institutions.

Client profile
