

UK/Crisis Management & Special Risks

## **Chemical, Biological, Radiological & Nuclear**

AXA XL offers worldwide insurance for assets that are exposed to war, terrorism and political violence events. We help companies navigate through dynamic, complex and ever-changing global threats.

The use of chemical, biological, radiological and nuclear (CBRN) weapons is a growing concern worldwide. Deployment would have a devastating impact, potentially causing damage and interruption to businesses a significant distance away from the CBRN release. Our comprehensive CBRN product is triggered when the property is damaged or contaminated from an act of terrorism or other malicious act. And with no location restrictions, rest assured that whether your property is 5 meters or 50 miles from the origin of the attack, we've got it covered.

Our clients also have access to our exclusively retained expert response consultants, S-RM, who provide world class pre-loss planning and post-loss business continuity management services.

## Coverage

- Property damage caused by blast/detonation of a CBRN weapon
- Decontamination and clean-up costs
- Demolition and debris removal
- Denial of access following a CBRN order
- Business interruption
- Public liability

## Capacity

\$75million.

## Client focus

We currently work with various businesses across many different industries, including a world famous entertainment venue and one of the world's largest parcel companies.
