

XL Insurance

Crisis Management and Special Risks

Chemical, Biological, Radiological Nuclear (CBRN)

AXA XL offers worldwide insurance for assets that are exposed to war, terrorism and political violence events. We help companies navigate through dynamic, complex and ever-changing global threats.

The use of chemical, biological, radiological and nuclear (CBRN) weapons is a growing concern worldwide. Deployment would have a devastating impact, potentially causing damage and interruption to businesses a significant distance away from the CBRN release. Our comprehensive CBRN product is triggered when the property is damaged or contaminated from an act of terrorism or other malicious act. And with no location restrictions, rest assured that whether your property is 5 meters or 50 miles from the origin of the attack, we've got it covered.

Our clients also have access to our exclusively retained expert response consultants, S-RM, who provide world class pre-loss planning and post-loss business continuity management services.

Target Industries

We accept clients from a wide range of industries and business sizes, from mid-sized companies to large multi-nationals. Typical organizations include:

- Academic institutions
- Hospitality businesses
- Stadiums
- Casinos
- Municipalities
- Healthcare providers
- Retailers/malls
- Media and telecoms businesses

Crisis response services

Our insurance is backed by expert advice from S-RM, a leading specialist risk and business intelligence consultancy. S-RM helps clients understand the security risks their business' face and find the most effective way to deal with them. Services include tailored risk assessments, security planning and active security management.

Rest assured that whether your property is 5 meters or 50 miles from the origin of the attack, we've got it covered.
